EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the second line of the insertion made at page 1, line 5, in the preliminary amendment filed 28 November 2003, after "December 21, 2001, now" change "allowed" to – US Patent 6,689,526 --.

The following is an examiner's statement of reasons for allowance: the instant claims are allowable over the art of record for the reasons given during prosecution. New claim 37 is seen as allowable over the art of record because Suda does not provide guidance as to the thickness of the surface region of the toner particle when the inorganic fine particles are impregnated into the particle, particularly not at about three times the inorganic particle diameter, and does not provide guidance or teaching that about three inorganic particle diameters would permit the formation of an electrorheological fluid, as required by the reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
